HealthLink SmartForms for Shexie Platinum

Welcome to the Initial Assessment and Referral Decision Support Tool (IAR-DST) for Mental Health.

Your practice must be running Shexie Platinum 7.0 or above to access the HealthLink SmartForms.

Using the IAR-DST SmartForm within Shexie Platinum

The integrated IAR Decision Support Tool for Mental Health SmartForm supports **Shexie Platinum** users to provide consistent, evidence-based decision-making, streamlining assessments to support better patient outcomes.

HealthLink Technical Support

Email: helpdesk@healthlink.net

Phone: 1800 125 036

Step 1:

Accessing HealthLink SmartForms

Step 2:

Launching a new SmartForm

Step 3:

Completing the SmartForm

Step 4:

Previewing and parking a SmartForm and generating a report

Step 5:

Accessing parked and auto-saved SmartForms

Step 6:

Accessing generated reports

Step 1: Accessing HealthLink SmartForms

There are three ways to access
SmartForms within your Shexie software...

A

From Appointments

In the appointment calendar, right click on the patient and then select **HealthLink Form**

or

B

From Patient Functions

Open and search for a patient via Patient Search. Once you are in the patient record click on **HL – HealthLink Form**.

or

C

From Patient Clinical

From the Patient Search screen, after you have located the patient, click on the patient's name, select **Patient Clinical** and then click on the **HL icon**.

Step 1:

Accessing HealthLink SmartForms

D

If the patient has any previously created SmartForms, you will be presented with a pop-up window where you can **access previously parked/auto-saved SmartForms**,

E

or **create a New SmartForm** for that patient.

Note: If the patient has not had a HealthLink SmartForm created previously, when you click on the HL icon, you will be taken directly to the HealthLink homepage.

The screenshot shows a window titled "HealthLink Form - Shexie Platinum". At the top, there are buttons for "New", "Open", and "Exit". To the right of these buttons, it says "Patient: Test Patient". Further right, there are dropdown menus for "Provider:" (set to "Dr. Aram Callahan 2419151J") and "Status:" (set to "All"). Below this is a table with the following columns: "Created Date", "Patient", "Type", "Subject", "Description", "Provider", "User", "Status", and "Message ID". The table contains one row of data: "04/06/2026", "Test Patient", "IAR Decision Support Tool for Me...", "IAR Decision Support Tool for Mental Health", "IAR Decision Support...", "Dr. Aram Callahan", "HL", "Completed", and "i ard-222". An orange circle with the letter "E" is positioned above the "New" button, with an arrow pointing to it. An orange circle with the letter "D" is positioned to the left of the table, with a bracket pointing to the first row of data.

Created Date	Patient	Type	Subject	Description	Provider	User	Status	Message ID
04/06/2026	Test Patient	IAR Decision Support Tool for Me...	IAR Decision Support Tool for Mental Health	IAR Decision Support...	Dr. Aram Callahan	HL	Completed	i ard-222

Step 2: Launching a new SmartForm

Now you're on the HealthLink homepage...

A

Here you'll find a list of available services to refer patients.

B

Within the **Spotlight Services** section, click on the link named **IAR Decision Support Tool for Mental Health**.

The screenshot shows the HealthLink PRO homepage. At the top, there's a blue header with 'Create', 'Update', and 'Support' links, and the 'HealthLink | PRO' logo. Below the header, there's a navigation bar with 'Specialists+Referrals' and 'Refer to Private' links. The main content area is divided into two sections: 'Referral Services' on the left and 'Spotlight Services' on the right. The 'Spotlight Services' section features a large blue banner with the text 'HL HealthLink Direct' and 'Spotlight Services'. Below this banner, there's a list of services. A tooltip is displayed over the 'IAR Decision Support Tool for Mental Health' link, explaining that it is an evidence-based clinical support tool for primary care in Australia, helping clinicians assess a person's mental health needs and identify the most appropriate level of care, supporting safe, consistent referral decisions. The tooltip also mentions that the tool is part of the 'Initial Assessment and Referral Decision Support' (IAR DST) program.

My Aged Care Referral

The Initial Assessment and Referral Decision Support Tool (IAR DST) is an evidence based clinical support tool for primary care in Australia. It helps clinicians assess a person's mental health needs and identify the most appropriate level of care, supporting safe, consistent referral decisions.

Step 3: Completing the SmartForm

Now you've loaded the SmartForm to complete.

A The SmartForm layout provides a consistent, easy-to-use tabular structure on the left, with the main action window on the right.

You'll notice SmartForms are **responsive**: They will pre-populate all available patient and referrer data and contain logic to request more specific patient information based on your selections.

B Please note: you need to agree to the **Terms of use** to proceed.

Step 3: Completing the SmartForm

Attachments

K The **Attachments / Reports** tab will give you access to all the supporting documents that you may wish to attach to the SmartForm.

L You can select any item from the **table** – showing you patient medical records captured from the **last six months**.

Or you can **browse for files...**

M • stored in your Practice Management Software by clicking the **Browse for Patient Document** button.

N **Note:** Make sure to update the date parameters if you want to see files that are older than 6 months.

O • stored in your local computer's file system by clicking the **Browse for Local File** button.

The first screenshot shows the 'Attachments / Reports' tab (K) in the SmartForm. It displays a table of patient medical records (L) with columns: Date, Name, Comments, Type, and Size. The table lists three files: File_123 (80 KB, rtf), File_456 (8 KB, rtf), and File_789 (90 KB, rtf). Buttons for 'Browse for Patient Document' (M) and 'Browse for Local File' (O) are visible. A caution note states: 'Caution: larger attachments may take significant time to preview'.

The second screenshot shows the 'Attach File' dialog box (N) that appears after clicking one of the browse buttons. It includes a search bar with 'Name' and 'Date' fields, and a table of files to attach. The table lists four files: File_One (43 KB), File_Two (52 KB), File_Three (48 KB), and File_Four (44 KB). The 'Date from' field is set to 08/01/2019 and the 'Date to' field is set to 08/07/2021. Buttons for 'Search', 'Attach', and 'Cancel' are also present.

Step 3: Completing the SmartForm

Patient Information

P

Check that your patient's information is correct. The responsive SmartForm will extract relevant patient information from their EMR.

It will also display a **warning** for some information taken from your Practice Management Software that needs reviewing.

For example, if a contact phone number is missing.

Previewing and parking a SmartForm and generating a report

C When you have completed your assessment, you can **Generate a Report**.

D The generated report is saved directly to the patient file. The report can then be attached to a mental health referral.

Step 5:

Accessing parked and auto-saved SmartForms

A Any parked or auto-saved SmartForm can be viewed from the patient's file after clicking the HL icon.

B Also, you can access all SmartForms via **Housekeeping > HealthLink Audit Report**

Note: when returning to a parked or auto-saved form, due to security policy, any previously added attachments will need to be re-added.

The screenshot displays the Shexie Platinum - HealthLink Form interface. At the top, there are sections for 'Health Conditions' and 'Allergies'. The 'Health Conditions' section includes a list of conditions: 'Cortex of adrenal gland Sick Mouse [C74.0]', 'Hyperaldosteronism - [E26]', 'Hyperaldosteronism [E26]', and 'Melanoma'. The 'Allergies' section includes a list of allergies: 'Dust and Pollen', 'Penicillins', and 'No Known Allergies'. A red box highlights the 'HL' icon in the top right corner, with an orange arrow pointing to it from a red circle labeled 'A'.

Below the top section is the 'Shexie Platinum - HealthLink Form' window. It shows a patient's file for 'Mr Patient Test' with a provider of 'Dr J Mountain 0319352K'. The status is 'All'. A table lists the patient's history:

Created Date	Patient	Type	Subject	Description	Provider	User	Status	Message ID
01/07/2026	Patient Test	IAR-DST for Mental Health	IAR-DST for Mental Health	IAR-DST for Mental Health	Dr J Mountain	HL	Parked	SES-488
29/09/2023	Patient Test	SR Referral to Genie Solut...	Specialist Referral	SR Referral to G...	Dr J Mountain	HL	Awaiting Ac...	SR-3912

Below the table is the 'Shexie Platinum - Healthlink User' window. It shows a user profile for 'Dr J Mountain' with a helpdesk number of '1300 743943 (1300 SHEXIE)'. The 'Housekeeping' menu is open, showing options like 'Backup Medical System Offsite', 'Pathology Results', 'Pathology Runs', 'Archive Patients', 'Exp/Imp Appointments to Outlook', 'Import/Export Bulk Letters', 'Link Unattached Files', 'Shexie Users Logged On', 'Timesheets', 'Network Messages', 'My Health Audit Export', and 'HealthLink Audit Report'. A red box highlights the 'HealthLink Audit Report' option, with an orange arrow pointing to it from a red circle labeled 'B'.

Below the 'Housekeeping' menu is the 'Shexie Platinum - HealthLink Form' window. It shows a patient's file for 'Patient Test' with a provider of 'All'. The status is 'All'. A table lists the patient's history:

Created Date	Patient	Type	Subject	Description	Provider	User	Status	Message ID
01/07/2026	Test Patient	IAR-DST for Mental Health	IAR-DST for Mental Health	IAR-DST for Mental Health	Dr J Mountain	HL	Completed	MAC-8179
17/05/2023		My Aged Care Referral	My Aged Care Referral	My Aged Care Referral	Dr J Mountain	HL	Completed	MAC-8177
04/05/2023		Eastern Health Referral	Breast Surgery - Michael Law	Eastern Health Referral Form	Dr J Mountain	HL	Parked	EH-7
03/05/2023		Eastern Health Referral	Allergy - Francis Thien	Eastern Health Referral Form	Dr J Mountain	HL	AutoSaved	EH-4
02/05/2023		Eastern Health Referral	Allergy - Francis Thien	Eastern Health Referral Form	Dr J Mountain	HL	AutoSaved	EH-1

Step 6: Accessing generated reports

A Generated reports are saved back to the **Documents** tab where they can be viewed in the patient file.

The screenshot displays the Shexie Platinum software interface. The top menu bar includes options like Patient Details, Referrals, Notes, New Report, Appointments, Audit Details, Hospital List, Surgery Details, Accounting, Alarms/Message, Env/Labels, Checklists, Synergy, SMS/eMail, Add to Waiting List, and Immunisation. The main window is divided into several sections. On the left, there are tabs for Medications (incl. Prescribed), Health Conditions, and Allergies. The 'Documents' tab is selected and highlighted with an orange box and a red 'A' label. The 'Documents' tab shows a list of documents with columns for Date, Description, Folder, and Status. The 'Status' column is expanded, showing options like Any Status, Document Deleted, Review Pending, Manual Send, Review Complete, and E-Letters Review Pending. On the right side of the interface, there is a section for 'IAR Decision Support Tool for Mental Health' (IAR-DST). This section includes patient information (Test Patient, 54yrs, F, DOB 02/07/1972, PH: Mob 000000000), residential address, and referral details. Below this, there is a 'Clinical Referral Information' section with a table of domains and their corresponding values. The table includes 'Primary domains' (Domain 1 - Symptom severity and distress: 1. Mild; Domain 2 - Harm: 0. No concerns about harm; Domain 3 - Functioning: 2. Moderate impact; Domain 4 - Impact of co-existing conditions: 2. Moderate impact), 'Contextual domains' (Domain 5 - Service use and response history: 0. No previous service use; Domain 6 - Social and environmental stressors: 2. Moderately stressful environment; Domain 7 - Family and other supports: 2. Limited supports; Domain 8 - Engagement and motivation: 1. Positive), 'DST-derived level of care' (Moderate intensity services or above (Level 3 or above)), and 'Level of care'.
